

# PLLS PRESS

## STARTING THE YEAR STRONG

As the New Year approaches, parents can help set their children up for success by gradually re-establishing routines, reviewing expectations, and preparing for transitions back to school or therapy schedules. Using visual supports, practicing daily routines, and reinforcing positive behaviors can help children feel secure and confident as they adjust to new goals and changes. Starting the year with consistency, patience, and encouragement creates a strong foundation for continued growth and success.

## BUILDING MOMENTUM IN THE NEW YEAR

Positive Life & Learning Solutions is grateful for the opportunity to continue providing compassionate, evidence-based ABA therapy that supports growth, communication, and independence. As we welcome the New Year, we reflect on the progress our learners have made and the resilience they demonstrate each day.

The start of a new year brings fresh goals, renewed focus, and exciting opportunities for growth. At Positive Life & Learning Solutions, we remain committed to creating supportive, engaging, and meaningful experiences for every child and family we serve. Thank you for trusting us on your journey—we look forward to another year of progress, partnership, and success together.
