A WORD

FROM US

Positive Life & Learning Solutions provides center-based Applied Behavior Analysis (ABA) services for children with autism and related developmental needs. Our team delivers individualized, evidence-based therapy focused on communication, social skills, independence, and positive behavior change. We use data-driven practices to monitor progress and adjust treatment to meet each child's unique needs. Throughout the month of September, we continue to work closely with families to support skill development across home, school, and community settings.

FIRST DAY OF FALL - 9/22

Fall is here, bringing cooler days, colorful leaves, and exciting opportunities to learn, grow, and have fun together! 🍁🍁

FALL INTO LEARNING!

Fall is here, bringing cooler weather, colorful leaves, and exciting opportunities to learn and grow! This season, families can support ABA goals through fun activities such as fall-themed sensory bins, pumpkin painting, leaf sorting, nature walks, and practicing daily routines. These activities can help strengthen communication, fine motor skills, following directions, turn-taking, and sensory exploration. We look forward to celebrating every achievement and creating meaningful learning experiences throughout the season!
